There are over 10 million skiers and riders in the United States.

Together, we have a better chance of fighting climate change.

**Raise Your Voice**
VOTE! Ask your elected officials to take swift and bold climate action. Thank them if they already have.

**Green Your Ride**
Shift to more sustainable transportation choices like public transit, car sharing or carpooling, and hybrid or electric cars. Consider buying offsets for your travel.

**Focus on Energy**
Reduce your use in your home and workplace and support renewable energy options. Visit the Energy Saver website for ideas:
https://www.energy.gov/energysaver/energy-saver

**Reduce Waste**
Curb waste, especially plastics, by going reusable or bringing your own mug, water bottle, grocery bags and straw. Recycle and compost both on and off the slopes.

**Support Green Businesses**
From gear and food choices to everyday services — support businesses that make sustainability a priority.

**Engage Your Local Ski Area**
Learn about and support their Sustainable Slopes Pledge and other sustainability initiatives:
https://www.nsaa.org/sustainableslopes

Be part of the solution.
